SO 1. University Printing works efficiently with departments and individuals to meet their printing needs with 100 percent customer satisfaction in quality and turnaround.

Measure 1.1.

The print shop will gage efficiency by measuring client satisfaction through surveys and counting the degree/volume/level of service. The surveys will gage satisfaction from both internal and external entities that utilize Print Shop services.

Finding: Target not met.

Analysis: In 2021-2022 the target was to produce surveys to gage customer satisfaction. No surveys were created; however, University Printing received e-mail and verbal satisfaction from customers. No customers expressed dissatisfaction with the Print Shop's performance or the professionalism of the personnel.

From July 2021-April 2022, the Print Shop completed 617 work orders with no reports of dissatisfaction. During the COVID-19 pandemic, normal job/production reduced as events were cancelled. In 2020, a new policy was enabled that prohibits the Print Shop from doing work from private groups/individuals not affiliated with the university. Since personnel returned to campus and more events and activities took place over the last year, production has risen to more normal levels.

Action – Based on the analysis of 2021-22 results, in 2022-2023, University Printing will monitor customer satisfaction. University Printing personnel will continue to operate in an efficient and professional manner.

Comprehensive summary of key evidence of improvement based on analysis of the results:

The NSU Print Shop is a well-organized and efficient unit that is a valuable resource to the university. Although no formal satisfaction surveys have been produced, verbal satisfaction is very high.
