 - a writing sample of 10-15 pages demonstrating facility in analysis, argument, research, citation, and coherence (Work from a past course is recommended, although that is not required. The writing need not be from an English course: We prefer writing samples that demonstrate sophisticated use of sources and analyses to English-specific essays, particularly from applicants who did not do extensive upper-level coursework in English);
 - a letter of intent of about 500 words describing career goals and rationale for pursuing graduate study in English (This statement should demonstrate a substantial and specific commitment to graduate study, and discussion of specific research interests is recommended); and
 - two letters of recommendation from people who have supervised the applicant in an academic or similar setting.
