The target is for each development officer to cycle 150 prospects annually.

Finding. The target was met.

Analysis: In 2021-2022 the target was met. Development officers cycled an average of 162 prospects annually. Based on the analysis of the 2021-2022 results, changes were made in 2022-2023 to assign additional prospects to each manager and max out the conversion rate.

Similar to last year's results, the increase was slight however, signaling the capacity of each fundraiser to move prospects through the cycle. Increasing prospects per manager is unlikely in the years to come as indicated by the slowed growth in conversion rates. Increasing the total number of prospects can be achieved through the addition of staff.
