

## How Do I Create a Text and Media Resource?

### Text and media

The text and media resource enables text and multimedia to be inserted into the course page in between links to other resources and activities. Text and media is versatile and can help to improve the appearance of a course if used thoughtfully.

To add Text and media:

Log in to Moodle and navigate to the course.

Turn editing on.

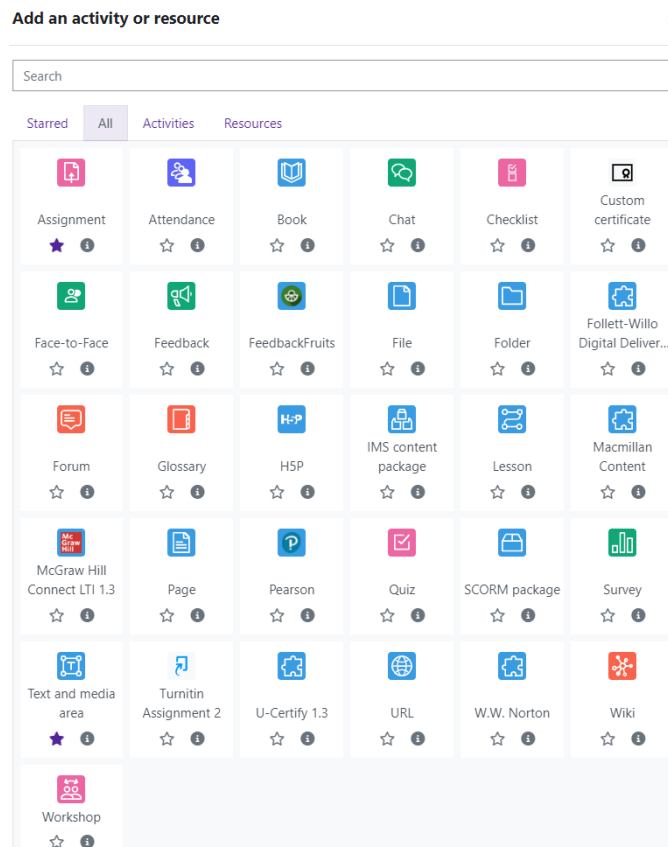

▼ **Topic 1** ✎

Within a topic, click on the add an activity or resource.

The Add an activity or resource picker will open.

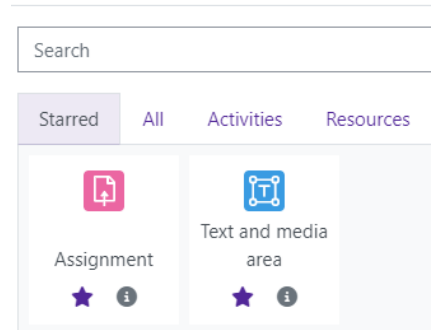

## Text and media area

Notice the icons below Text and media. The star icon will allow instructors to “star” an activity or resource that is used most frequently.

The activity or resource picker also allows toggling between Starred, All, Activities, and Resources.

### Add an activity or resource

Clicking on the “i” —information icon—will open a window that gives more information about the activity or resource.

#### Text and media area

The Text and media area enables you to display text and multimedia on the course page.

You can use a Text and media area to:

- Split up a long list of course activities with a subheading or an image
- Display an embedded video directly on the course page
- Add a short description to a course section

[More help](#)

For additional help, click on “More help” to navigate to the Moodle Docs site.

Choose Text and media.

Moodle will open the “Adding a new Text and media area” page.

Add the Text and Media text. (If you don’t add a title the system will generate one, but it doesn’t show the title in your Moodle shell).

You can customize font by using the editing tools.

Text and multimedia can be inserted as well.

Save and return to course.
