

NORTHWESTERN STATE UNIVERSITY SCHOOL OF ALLIED HEALTH

NORTHWESTERN STATE UNIVERSITY MISSION

Northwestern State University is a responsive, student-oriented institution committed to acquiring, creating, and disseminating knowledge through innovative teaching, research, and service. With its certificate, undergraduate, and graduate programs, Northwestern State University prepares its increasingly diverse student population to contribute to an inclusive global community with a steadfast dedication to improving our region, state, and nation.

SCHOOL OF ALLIED HEALTH MISSION

Northwestern State University College of Nursing and School of Allied Health serves an increasingly diverse student population while advancing the mission of the University by offering excellent and innovative undergraduate, graduate, certificate, and continuing education programs that are designed to assist individuals in achieving their goals to become responsible and contributing members of an interprofessional global community that improves the health of our region, state, and nation.

BACHELOR OF SCIENCE IN RADIOLOGIC SCIENCES (BSRS) PROGRAM MISSION

The mission of the Northwestern State University BSRS Program is to provide students with advanced knowledge and skills through guided experiences and clinical practice that culminate in the development of professional radiologic technologists and sonographers who become an integral part of the healthcare community and society.

DIAGNOSTIC MEDICAL SONOGRAPHY MISSION

The mission of the Northwestern State University Radiologic Sciences Ultrasound Concentration Program is to provide students with advanced knowledge and skills through guided experiences and clinical practice to produce entry-level sonographers eligible for registration by the American Registry of Diagnostic Medical Sonographers in Abdominal sonography, OB/Gyn sonography, and vascular sonography.

RADIOGRAPHY PROGRAM GOALS

Consistent with the BSRS mission statement, the specific goals for the educational program are listed below:

GOALS	STUDENT LEARNING OUTCOMES
Students will be clinically competent.	<ul style="list-style-type: none">• Students will perform quality procedures.• Students will develop assessment skills of an imaging professional.
Students will demonstrate critical thinking skills.	<ul style="list-style-type: none">• Students will evaluate a clinical situation and perform accordingly using critical thinking skills.• Students will critically evaluate and assess challenges within the healthcare administrative setting.
Students will demonstrate an understanding of professionalism.	<ul style="list-style-type: none">• Students will demonstrate an understanding of professional advocacy.• Students will integrate adherence to professional behaviors.
Students will demonstrate the ability to communicate effectively.	<ul style="list-style-type: none">• Students will develop oral communication skills.• Students will demonstrate written communication skills.

DIAGNOSTIC MEDICAL SONOGRAPHY PROGRAM GOALS

The DMS program goal is to prepare competent entry-level sonographers in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains for the following concentrations it offers: abdominal sonography-extended, obstetrics and gynecology sonography, and vascular sonography. Consistent with the mission statement, the specific goals and learning outcomes for the educational program are listed below:

GOALS	STUDENT LEARNING OUTCOMES
Students will be clinically competent sonographers.	<ul style="list-style-type: none"> • Students will proficiently operate ultrasound equipment and select appropriate transducers for different exams. • Students will acquire high-quality diagnostic images using various sonographic techniques, such as B-mode, Doppler, and color flow imaging. • Students will perform quality sonographic exams. • Students will develop assessment skills of an imaging professional.
Students will demonstrate critical thinking and problem-solving skills.	<ul style="list-style-type: none"> • Students will evaluate a clinical situation and perform accordingly using critical thinking skills. • Students will critically evaluate and assess challenges within the healthcare administrative setting. • Students will accurately evaluate and report diagnostic findings.
Students will demonstrate professionalism, ethical conduct, and adherence to standards in sonography practice.	<ul style="list-style-type: none"> • Students will demonstrate an understanding of professional advocacy. • Students will integrate adherence to professional behaviors. • Students will demonstrate ethical conduct in the clinic and classroom settings.
Students will demonstrate the ability to communicate effectively.	<ul style="list-style-type: none"> • Students will demonstrate oral communication skills.

	<ul style="list-style-type: none">• Students will demonstrate written communication skills.
Students will be prepared to take national sonography registry exams.	<ul style="list-style-type: none">• Students will achieve a benchmark score of 80% on registry mock exams.• Students will achieve a C or better in registry review courses.
