

List of Educable Children Between the Ages of Six and Eighteen Years

Robert DeBlieux Collection

Two ledgers documenting the educable children of ten wards in Natchitoches Parish for 1899 and 1903, and each contains over ten thousand handwritten entries. Some of these records are particularly important considering the lack of remaining 1890 federal census records.

This collection is the care of the Cammie G. Henry Research Center. Any use must be by permission. email wernet@nsula.edu for details.
