

Assessment Cycle 2024-2025

Student Experience & Student Affairs

Prepared by: Dr. Yonna Pasch

Date: 6/9/2025

Approved by: Reatha Cox

Date: 6/16/2025

Northwestern State Mission

Northwestern State University is a responsive, student-oriented institution committed to acquiring, creating, and disseminating knowledge through innovative teaching, research, and service. With its certificate, undergraduate, and graduate programs, Northwestern State University prepares its increasingly diverse student population to contribute to an inclusive global community with a steadfast dedication to improving our region, state, and nation.

The Student Experience Mission

The Student Experience provides the University community with programs and services to support the academic mission of creating, disseminating, and acquiring knowledge through teaching, research and service while empowering a diverse student population to achieve their highest educational potential. The Student Experience creates a stimulating and inclusive educational environment that is conducive to holistic personal growth. The commitment to students initiates prior to entrance, sustains throughout the college experience, and continues beyond graduation. Enrollment Services provide equal access for education to potential students throughout the state and region and promote economic stability and financial access to citizens. Student Affairs enhances student development and broadens intellectual, social, cultural, ethical, and occupational growth. The Student Experience works closely with faculty, staff, students, and the community to ensure graduates have the capability to promote economic development and improvements in the region.

Student Affairs Mission

The Division of Student Affairs prepares students to be productive members of society and to improve the quality of life of students. Student Affairs provides support services in career development and placement, advocacy and accountability, academic support, mental and physical health, disability accommodations, student activities and organizations, student union life, and opportunities in leadership, community service, and programs for new students. Through hands-on involvement in programs and services, Student Affairs promotes personal development in a student-centered environment, which delivers innovative practices in an environment of respect. Student Affairs encourages integrity, diversity, and collaboration with all members of the university community.

Methodology:

1. The Student Experience Division is both service-oriented and focused on student learning. Therefore, both service and learning outcomes will be utilized. Assessment methods will be qualitative and quantitative, direct, indirect, and summative.

Assessment Cycle 2024-2025

2. The Vice President for the Student Experience and the Director of Student Affairs are responsible for the assessment process.
3. The Vice President for the Student Experience will share assessment results with both University and external stakeholders, and community agents.
4. Based on the sharing of data, revisions and recommendations for improvements will be made for the next assessment period.

Student Experience & Student Affairs Service Learning Outcomes

SLO 1. Students who participate in the President's Leadership Program will be able to apply foundational leadership concepts, develop a personal leadership philosophy, become self-aware, understand the dynamics of decision-making, become involved in the community, and engage in a positive - inclusive learning experience.

Measure 1.1. Ninety-five percent (95%) of students will respond that they "Strongly Agree" and "Agree" that their expectation of the President's Leadership Program was met. *DATA: President's Leadership Program Evaluations*

Finding: Target was met.

Analysis.

In AC 2023-2024 the target was met. The staff used the program evaluations to craft a curriculum that will meet the PLP students' needs. Furthermore, the survey was edited to include a line regarding the overall expectation of the program and the staff collected information regarding their satisfaction within each category. The First Year Experience team made improvements in the recruitment and interview process for first-year students interested in the program. PLP mentors helped implement new initiatives, opportunities for engagement, and develop new programming to address all areas of the expected outcomes. All ten categories totaled 98.6% of program satisfaction with participants selecting either strongly agreed or agree on the survey.

Based on the analysis of the AC 2023-2024 results, the staff made the following changes in AC 2024-2025 to drive the cycle of improvement. Staff made improvements in the recruitment and interview process for first-year students interested in the program with outreach during the Freshmen Connection programs as well as N-Side View Day programs. Past PLP members helped implement new initiatives and develop new programming to address all areas of the expected outcomes. The staff, along with PLP mentors, used the program evaluations to craft a curriculum that met the PLP students' needs.

As a result of these changes, in AC 2024-2025 the target was met. All ten categories totaled 97.6% of program satisfaction with participants selecting either strongly agreed or agree on the survey. All 47 students responded that their overall expectation was met.

Decision:

In AC 2024-2025 the target was met.

Assessment Cycle 2024-2025

Based on the analysis of the AC 2024-2025 results, the staff will implement the following changes in AC 2025-2026 to drive the cycle of improvement. A review of the course curriculum will occur based on 2024-2025 student feedback. Staff will host a Peer Leader feedback session mid-semester, where small groups of students will reflect on their growth, share experiences, and offer feedback on program components in a supportive, student-led setting.

These changes will improve the students' ability to understand their expectations of the President's Leadership Program, thereby continuing to push the cycle of improvement forward.

Measure 1.2. Sixty percent (60%) are engaged in campus activities in a leadership role by the end of their first year. *DATA: President's Leadership Program Evaluations*

Finding: Target was met.

Analysis.

In AC 2023-2024 the target was met. The staff invited PLP alumni, student leaders, staff, and faculty to educate PLP students of the leadership opportunities within the NSU community. PLP mentors took an active role in informing students regarding their involvement at NSU and their specific leadership roles. Each class meeting highlighted activities, programs, and initiatives that PLP students participated in that allowed them to grow as leaders outside of the classroom. The survey indicated that 95% of students (44) reported engagement in campus life programs and student organizations. Students indicated that they also assumed leadership roles in at least one student organization, or program by the end of the spring semester. Some leadership roles included members of student organization executive councils, becoming a Freshman Connector, UPC Concert Committee, Purple Jackets, Student Theater Organization, SGA senators, NSU Athletics, Demon Mentor Network, etc.

Based on the analysis of the AC 2023-2024 results, the staff made the following changes in AC 2024-2025 to drive the cycle of improvement. The staff invited PLP alumni, student leaders, organization presidents, staff members, and faculty to educate PLP students of the leadership opportunities within the NSU and Natchitoches community. With out-of-classroom events and programs offered at NSU throughout the year, PLP students researched what roles and responsibilities will be valuable to them as they look to their second-year experience based on their co-curricular goals.

As a result of these changes, in AC 2024-2025 the target was **met**. The survey indicated that 98% of students (46 of 47) reported engagement in campus life programs and student organizations and 60% of students indicated that they also assumed leadership roles in at least one student organization, or program by the end of the spring semester. Some leadership roles included members of student organization executive councils, becoming a Freshman Connector, BCM worship leader, Greek executive board members, Student Government, Alpha Lambda Delta, and athletics.

Decision:

In AC 2024-2025 the target was met.

Based on the analysis of the AC 2024-2025 results, the staff will implement the following

Assessment Cycle 2024-2025

changes in AC 2025-2026 to drive the cycle of improvement. Students will take part in the Leadership Development Series (Student Experience Success Series) featuring monthly workshops co-led by campus leaders, PLP alumni, and community partners. These sessions will focus on leadership skills such as team management, public speaking, conflict resolution, and goal-setting. PLP mentors will implement a Leadership Goal Mapping Activity during the fall to help students intentionally align their involvement with long-term leadership aspirations. Students will identify leadership roles of interest toward end of fall term and create a co-curricular engagement plan with check-in milestones for the spring.

These changes will improve the student's ability to participate in campus activities, thereby continuing to push the cycle of improvement forward.

SLO 2. Each student will complete a Community Impact Project incorporating the lessons learned in the program.

Measure 2.1. Students will attain a minimum score of 80% on their Community Impact Project per a multi-component grading scale. *DATA: President's Leadership Program student reflections, course grades, class presentations, and mentor reflections on the Community Impact Projects*

Finding: Target was met.

Analysis.

In AC 2023-2024 the target was met. The staff invited representatives from the community to attend class to educate the students about their specific volunteer needs. This outreach helped PLP students decide on the community impact projects that are available to them and that are meeting the needs of our community, thus an increase of sustainability. The Community Impact Projects were introduced in the curriculum earlier, allowing more time for students to collaborate on sustainable projects. There was a more in-depth conversation about the community needs and the potential impact of the potential projects. All 49 students earned 100% on their Community Impact Projects. The multi-component scale used for students assessing their project indicated that the evaluation topic percentage average was 96% in areas of meeting community needs (98%), partnerships (92%), learning (94%), insights and understanding (96%), and leadership development (100%). There was an increase in all areas from AC 2022-2023.

Based on the analysis of the AC 2023-2024 results, the staff made the following changes in AC 2024-2025 to drive the cycle of improvement. For the past several years, the community impact projects have been duplicated within the President's Leadership Program, which indicated the programs are sustainable. For AC 2024-2025, the PLP students researched what new projects could be added to this program based on the needs assessment of our NSU and Natchitoches community.

As a result of these changes, in AC 2024-2025 the target was **met**. All 49 students earned 100% on their Community Impact Projects. The multi-component scale used for students assessing their project indicated that the evaluation topic percentage average was 98% in areas of meeting community needs (98%), partnerships (96%), learning (94%), insights and understanding (100%), and leadership development (100%).

Assessment Cycle 2024-2025

Decision:

In AC 2024-2025 the target was met.

Based on the analysis of the AC 2024-2025 results, the staff will implement the following changes in AC 2025-2026 to drive the cycle of improvement. A new Peer Review Component will be introduced, where students will present their project proposals at the end of the Fall semester to classmates and mentors for feedback prior to implementation.

These changes will improve the student's ability to obtain at least an 80% on the community impact project, thereby continuing to push the cycle of improvement forward.

Measure 2.2. Ninety percent (90%) of projects will be sustainable through infrastructure and community commitment as judged by a focus group of faculty members, peer mentors, and community representatives. *DATA: President's Leadership Program Experience Community Impact Projects and Class Presentation and evaluation.*

Finding: Target was met.

Analysis.

In AC 2023-2024 the target was met. The staff developed a community resource guide for non-profits in the area to help identify specific volunteer needs for the next assessment cycle. Staff identified specific on-campus community service work to be completed during the Fall term. This process encouraged a service mindset early in their PLP program and set a foundation of service initiatives for the spring term. Discussions with community leaders and agency representatives took place earlier in the program to identify new partners and opportunities. Community impact projects included topics such as:

- 1) Literacy
- 2) Food Insecurity
- 3) Senior Citizens Exceptional
- 4) Spirit and Traditions
- 5) Campus Safety & Security
- 6) Demons After Dark
- 7) Opportunities & Special Olympics

All seven of the Community Impact Projects were identified as sustainable in AC 2022-2023 as well as in AC 2023-2024. Mentors, site representatives, collaborative community partners, and staff members agreed that the projects provided added value to the community. Utilizing the community impact project evaluation results under "Progress and Leadership Development" section, 94% (46/49) indicated significant growth or personal development and 6% (3/49) increased sensitivity or change of attitude due to their involvement with these projects.

Based on the analysis of the AC 2023-2024 results, the staff made the following changes in AC 2024-2025 to drive the cycle of improvement. The program director discussed the importance of servant leadership at the N-side View Day program and the PLP Emerging Leaders Day programs for prospective students. The President's Leadership Program website and publications were revised to incorporate major components of the program including community impact projects. This process encouraged a service mindset early in their PLP program and set a foundation of

Assessment Cycle 2024-2025

service initiatives for AC 2024-2025.

As a result of these changes, in AC 2024-2025 the target was met. Mentors, site representatives, collaborative community partners, and staff members agreed that the projects provided added value to the community. Utilizing the community impact project evaluation results under “Progress and Leadership Development” section, 91% (43/47) indicated significant growth or personal development and 8% (4/47) increased sensitivity or change of attitude due to their involvement with these projects.

Decision:

In AC 2024-2025 the target was met.

Based on the analysis of the AC 2024-2025 results, the staff will implement the following changes in AC 2025-2026 to drive the cycle of improvement. Community Impact Project Showcases will be held each spring, allowing students to present outcomes, future, and reflect on the project’s impact in front of peers, community partners, and university leaders. To encourage ongoing collaboration with external organizations, PLP staff will create a Community Partner Feedback Loop, which includes structured post-project surveys with each community partner to assess project sustainability, areas for improvement, and recommendations for future engagement.

These changes will improve the student's ability to identify community impact projects that are sustainable for the NSU and Natchitoches community, thereby continuing to push the cycle of improvement forward.

SO 1. Enhance quality of campus life through educational, social, and cultural programs, and services.

Measure 1.1. Food insecurity is a major burden among college students. To help reduce food insecurity NSU created The Food Pantry. The Food Pantry provides free food, goods, and resources to students with food insecurities. Success will be defined as those using goods and services provided by The Pantry with an overall satisfaction rate of at least 80% which will include satisfied and very satisfied responses. *Data from volunteers and patrons.*

Finding: Target was met.

Analysis.

In AC 2023-2024 the target was not met. The staff utilized an online platform that will help with data collection and assessment of patron and volunteer satisfaction with The Pantry. The staff implemented a student experience committee to include faculty, staff, and students. The committee focused on the Hunger Free Campus initiative and explored options for students who are eligible for benefits and provide the necessary reasonable services. With an increase in visibility with The Pantry this past assessment cycle (involvement with the [1 of 7] service event and the V.L. Roy Service Day), the staff and student volunteers created a student organization to focus on other initiatives, programs, and funding sources that helped with patron satisfaction with the goods, services provided by The Pantry. The staff utilized an online platform that will help with data collection and assessment of patron and volunteer satisfaction with The Pantry. The Pantry had a total of 36 volunteers including 2 coordinators that logged over 300 volunteer hours in The Pantry

Assessment Cycle 2024-2025

and an additional 100 volunteer hours for events and projects held outside of The Pantry. There was a total 788 visits to The Pantry with a total of 344 unique attendees. Although The Pantry met the target for AC 2023-2024, with an overall satisfaction rate of at 100% which includes satisfied and very satisfied responses, the response rate was low.

Based on the analysis of the AC 2023-2024 results, the staff made the following changes in AC 2024-2025 to drive the cycle of improvement. The Pantry staff posted The Pantry Guest Feedback Survey at the onsite location, to their bio on their social media platforms, and sent it out at the conclusion of each semester to guests and volunteers with the intent to increase the response rate.

As a result of these changes, in AC 2024-2025 the target was **met**. . The staff utilized an online platform that will help with data collection and assessment of patron and volunteer satisfaction with The Pantry. The Pantry had a total of 48 volunteers including 2 coordinators that logged over 504 volunteer hours in The Pantry and an additional 127 volunteer hours for events and projects held outside of The Pantry. There was a total 945 visits to The Pantry with a total of 393 unique attendees. Although The Pantry met the target for AC 2023-2024, with an overall satisfaction rate of at 100% which includes satisfied and very satisfied responses, the response rate was low.

Decision:

In AC 2024-2025 the target was met.

Based on the analysis of the AC 2024-2025 results, the staff will implement the following changes in AC 2025-2026 to drive the cycle of improvement. To address the low response rate on satisfaction surveys, the staff will offer provide real-time digital survey access onsite and simplify the survey format. To enhance visibility and outreach, The Pantry will host monthly events in collaboration with student organizations and integrate awareness into first-year student programming (Demon Days The Pantry Training days). The staff will also pursue partnerships with faculty/staff, local businesses, and community organizations to increase resources and funding opportunities.

These changes will improve the student's ability to identify the resources offered by NSU to help with food insecurity among our students, thereby continuing to push the cycle of improvement forward.

Measure 1.2 Foster diverse participation in campus activities and programs. Initiatives and programs are inclusive and embrace community members with diverse backgrounds and life experiences and support the free and open exchange of ideas and civil discourse. University officials from a myriad of areas on campus collaborate to provide inclusive and diverse programming. With the exchange of ideas, the accountability of fostering diversity within our programs is an ongoing initiative. Evidence of the adoptions of or the interaction with diversity-related programs and departments will be a strategic indicator of success and will be documented in the minutes. The goal is to meet regularly and provide professional development opportunities at 50% of the meetings for the academic year.

Finding: Target was met.

Analysis.

In AC 2023-2024 the target was not met. The committee coordinator updated the email

Assessment Cycle 2024-2025

distribution list as some staff have either left NSU, changed departments, or there are new employees to NSU that could benefit from this committee collaboration. Before the start of the term, the request to present on departmental resources went out to the campus community, not just those who attended the bi-monthly (twice a month) meetings. The committee coordinator also changed this measure for this assessment cycle to read, "Foster diverse participation in campus activities and programs. Initiatives and programs are inclusive and embrace community members with diverse backgrounds and life experiences and support the free and open exchange of ideas and civil discourse. University officials from a myriad of areas on campus collaborate to provide inclusive and diverse programming. With the exchange of ideas, the accountability of fostering diversity within our programs is an ongoing initiative. Evidence of the adoptions of or the interaction with diversity-related programs and departments will be a strategic indicator of success and will be documented in the minutes. The goal is meet regularly and provide professional development opportunities at 50% of the meetings for the academic year." We were successful in meeting 15 times for AC 2024-2025, however, there were only six (6) professional development sessions out of fifteen (15) meeting dates which totals only 40% of the meetings for the academic year. After reviewing meeting attendance records, the highest percentage of attendance was 35% of those invited (during January 2024) and the lowest attended meeting of 21% (during November 2023).

Based on the analysis of the AC 2023-2024 results, the staff made the following changes in AC 2024-2025 to drive the cycle of improvement. Before the start of the academic year, the request to present departmental resources was sent out to the campus and NSU community using a specific sign-up portal system to collect this information as opposed to sending out the request internally. Furthermore, the selection of the meeting dates was evaluated to ensure important university dates, holidays, etc. were considered before booking the meetings.

As a result of these changes, in AC 2024-2025 the target was **met**. The committee hosted nine professional development sessions across 14 meetings, achieving a 64% rate that exceeded our 50% target. Additionally, attendance showed dramatic improvement with peak attendance reaching 96% (compared to only 35% in the previous year).

Decision:

In AC 2024-2025 the target was met.

Based on the analysis of the AC 2024-2025 results, the staff will implement the following changes in AC 2025-2026 to drive the cycle of improvement. The Director of Student Affairs will utilize the sign-up portal system for professional development presenters, which successfully increased participation from 6 sessions in 2023-2024 to 9 sessions in 2024-2025 and will implement targeted outreach strategies to other departments to ensure diverse representation and education of resources. the committee will revise its attendance tracking methodology, shifting from individual-based to department-based representation metrics, which will more accurately reflect consistent departmental engagement regardless of which specific staff member attends from week to week.

These changes will improve institutional knowledge sharing and collaboration across departments, while increasing accessibility to vital campus resources for all NSU community members, including those with scheduling conflicts. The digital repository will create sustainable, year-round access to professional development materials, enhancing the

Assessment Cycle 2024-2025

committee's impact beyond meeting attendees. Additionally, the targeted outreach strategies will foster more inclusive representation, ensuring diverse perspectives contribute to university initiatives and creating a more comprehensive understanding of available campus resources for students, faculty, and staff.

Comprehensive summary of key evidence of improvements based on analysis of results. The following reflects all the changes implemented to drive the continuous process of seeking improvement in AC 2024-2025. These changes are based on the knowledge gained through the AC 2023-2024 results analysis.

SLO. 1:

1.1: The First Year Experience team made improvements in the recruitment and interview process for first-year students interested in the program with outreach during the Freshmen Connection programs as well as N-Side View Day programs. Past PLP members helped implement new initiatives and develop new programming to address all areas of the expected outcomes. The staff, along with PLP mentors, used the program evaluations to craft a curriculum that met the PLP students' needs.

1.2 The staff invited PLP alumni, student leaders, organization presidents, staff members, and faculty to educate PLP students of the leadership opportunities within the NSU and Natchitoches community. With out-of-classroom events and programs offered at NSU throughout the year, PLP students researched what roles and responsibilities will be valuable to them as they look to their sophomore experience based on their co-curricular goals.

SLO. 2:

2.1: For the past several years, the community impact projects have been duplicated within the President's Leadership Program, which indicated the programs are sustainable. For AC 2024-2025, the PLP students researched what new projects could be added to this program based on the needs assessment of our NSU and Natchitoches community.

2.2: The program director discussed the importance of servant leadership at the N-side View Day program and the PLP Emerging Leaders Day programs for prospective students. The President's Leadership Program website and publications were revised to incorporate major components of the program including community impact projects. This process encouraged a service mindset early in their PLP program and set a foundation of service initiatives for AC 2024-2025.

SO. 1:

1.1: The Pantry staff posted The Pantry Guest Feedback Survey at the onsite location, to their bio on their social media platforms, and sent it out at the conclusion of each semester to guests and volunteers with the intent to increase the response rate.

1.2: Before the start of the academic year, the request to present departmental resources was sent out to the campus and NSU community using a specific sign-up portal system to collect this information as opposed to sending out the request internally. Furthermore, the selection of the meeting dates was evaluated to ensure important university dates, holidays, etc. were considered before booking the meetings.

Plan of action moving forward.

Assessment Cycle 2024-2025

SLO. 1:

1.1: A review of the course curriculum will occur based on 2024-2025 student feedback. Staff will host a Peer Leader feedback session mid-semester, where small groups of students will reflect on their growth, share experiences, and offer feedback on program components in a supportive, student-led setting.

1.2 Students will take part in the Leadership Development Series (Student Experience Success Series) featuring monthly workshops co-led by campus leaders, PLP alumni, and community partners. These sessions will focus on leadership skills such as team management, public speaking, conflict resolution, and goal-setting. PLP mentors will implement a Leadership Goal Mapping Activity during the fall to help students intentionally align their involvement with long-term leadership aspirations. Students will identify leadership roles of interest toward end of fall term and create a co-curricular engagement plan with check-in milestones for the spring.

SLO. 2:

2.1: A new Peer Review Component will be introduced, where students will present their project proposals at the end of the Fall semester to classmates and mentors for feedback prior to implementation.

2.2: Community Impact Project Showcases will be held each spring, allowing students to present outcomes, future, and reflect on the project's impact in front of peers, community partners, and university leaders. To encourage ongoing collaboration with external organizations, PLP staff will create a Community Partner Feedback Loop, which includes structured post-project surveys with each community partner to assess project sustainability, areas for improvement, and recommendations for future engagement.

SO. 1:

1.1: To address the low response rate on satisfaction surveys, the staff will offer provide real-time digital survey access onsite and simplify the survey format. To enhance visibility and outreach, The Pantry will host monthly events in collaboration with student organizations and integrate awareness into first-year student programming (Demon Days The Pantry Training days). The staff will also pursue partnerships with faculty/staff, local businesses, and community organizations to increase resources and funding opportunities.

1.2: The Director of Student Affairs will utilize the sign-up portal system for professional development presenters, which successfully increased sign-ups from 6 sessions in 2023-2024 to 9 sessions in 2024-2025 and will implement targeted outreach strategies to other departments to ensure diverse representation and education of resources. the committee will revise its attendance tracking methodology, shifting from individual-based to department-based representation metrics, which will more accurately reflect consistent departmental engagement regardless of which specific staff member attends from week to week.
