

MASTER OF SCIENCE

Radiologic Sciences (MSRS)

The Master of Science in Radiologic Sciences Program at Northwestern State University provides a specialized program of study that will prepare baccalaureate imaging sciences professionals to become leaders in the radiologic sciences. The MSRS program offers two concentrations in the areas of radiologic sciences education and administration. The program allows radiologic sciences professionals to earn a graduate degree in their discipline and to develop skills that will assist with career advancement within radiologic sciences education and administration.

Program Design

The MSRS program is designed to allow technologists to continue to work while they pursue the degree. The classes for the MSRS program are 100% online. Out of state fees are waived for students taking only online courses.

Program Requirements

Students interested in enrolling in the Master of Science in Radiologic Sciences program must meet the eligibility requirements for Graduate Studies at Northwestern State University. In addition, entry into the program requires a bachelor's degree and students must hold credentials in one of the medical imaging modalities or radiation therapy. Also, students must have completed an undergraduate statistics or research course.
