

STUDENT TECHNOLOGY FEE INFRASTRUCTURE REQUEST FORM FISCAL YEAR 2025-26

ALL BLANKS MUST BE FILLED COMPLETELY

Prepared by: _____ for _____

Department/Unit: _____ College: _____ Campus: _____

Which [NSTEP Goals/Objectives](#) does this project meet? _____

Signature: _____ Date: _____

Proposal Requested Amount: _____ Budget Attached: YES NO

1. Describe target audience:

2. Describe project/initiative for which you are requesting funds:

3. State measurable objective that will be used to determine the impact/effectiveness of the project:

4. Indicate how each project objective will be evaluated:

5. If funded, which [NSTEP objective\(s\)](#) will this funding of this project advance? How will funding of the project advance the University and College/unit technology plan?

6. Provide a justification for funding of this project. Estimate the number of students that will be served per academic year and in what ways. Please indicate any unique needs of the target group:

STUDENT TECHNOLOGY FEE INFRASTRUCTURE REQUEST FORM

7. List those individuals who will be responsible for the implementation of the project/initiative and indicate their demonstrated abilities to accomplish the objective of the project:

8. Describe any personnel (technical or otherwise) required to support the project/initiative:

9. Provide a schedule for implementation and evaluation:

10. Estimate the expected life of hardware and software. Explain any anticipated equipment/software upgrades during the next five (5) years:

11. Explain in detail a plan and policy that will be in place to ensure property security/controls for any equipment received through the Student Technology Fee. If you are requesting equipment that will either be checked out to students or moved within the department, you must provide a checkout/loan policy:

12. Below is a detailed budget:

Department	Description	Cost Per Project	Total Cost

Re: Infrastructure Updates

TLDR: The Information Technology Services (ITS) department is requesting funding to upgrade the aging infrastructure of the data center and disaster recovery (DR) site located on the Natchitoches and Shreveport campuses. We are seeking up to \$200,000 from the Student Technology Fee to help cover the costs of these projects in the fiscal year 2025-26. The total projected cost of the project is approximately \$700,000 for the fiscal year, with the Tech Fee's contribution accounting for less than one-third of the overall expenses.

Several core components of NSU's data centers have surpassed their expected lifespan and are no longer supported. These data centers are essential for the university's operations and mission. For over a decade, this equipment has provided the university with reliable data computation capabilities, power protection, backup solutions, data protection, and storage. As we are preparing to replace this crucial equipment, ITS has collaborated with partners and internal staff to design the next generation of the university's data center. The proposed refresh will enhance resilience, reduce downtime, and expand the service options available to the university community. Furthermore, the new equipment will allow the university to enhance its service offerings and improve the performance of existing systems.

This project is the beginning of a multi-year effort by ITS to modernize the data center infrastructure, with an estimated total cost between \$1 million and \$1.5 million. Phase one involves updating and replacing the compute platform and storage systems in the main Natchitoches data center. Phase two will address the update or replacement of the compute and storage components in the Shreveport disaster recovery data center. Phase three will focus on refreshing the internal network communications between data center equipment while also addressing the backup systems in both the primary data center and the disaster recovery site. The final phase will involve replacing and repairing the power delivery systems, backup power, and HVAC systems in both the primary and disaster recovery data centers.

Attached, you will find the budgetary quotes for the initial phases. Quotes for phase three are coming soon. Please note that the equipment models, quantities, pricing, and even the vendor may change after the final design of each project is selected. Additionally, the vendors have requested that budgetary pricing not be publicly published.

Your Dell Quote 3000194463180.2 | Northwestern | PS500T | Storage and Compute

From Harper, Jordan <Jordan.Harper@dell.com>

Important Notes

Terms of Sale

This Quote will, if Customer issues a purchase order for the quoted items that is accepted by Supplier, constitute a contract between the entity issuing this Quote ("Supplier") and the entity to whom this Quote was issued ("Customer"). Unless otherwise stated herein, pricing is valid for thirty days from the date of this Quote. All products, pricing, and other information is based on the latest information available and is subject to change for any reason, including but not limited to tariffs imposed by government authorities. Supplier reserves the right to cancel this Quote and Customer purchase orders arising from pricing errors. Taxes and/or freight charges listed on this Quote are only estimates. The final amounts shall be stated on the relevant invoice. Additional freight charges will be applied if Customer requests expedited shipping. Please indicate any tax exemption status on your purchase order and send your tax exemption certificate to Tax_Department@dell.com or ARSalesTax@emc.com, as applicable.

Governing Terms: This Quote is subject to: (a) a separate written agreement between Customer or Customer's affiliate and Supplier or a Supplier's affiliate to the extent that it expressly applies to the products and/or services in this Quote or, to the extent there is no such agreement, to the applicable set of Dell's Terms of Sale (available at www.dell.com/terms or www.dell.com/oemterms), or for cloud/as-a-Service offerings, the applicable cloud terms of service (identified on the Offer Specific Terms referenced below); and (b) the terms referenced herein (collectively, the "Governing Terms"). Different Governing Terms may apply to different products and services on this Quote. The Governing Terms apply to the exclusion of all terms and conditions incorporated in or referred to in any documentation submitted by Customer to Supplier.

Supplier Software Licenses and Services Descriptions: Customer's use of any Supplier software is subject to the license terms accompanying the software, or in the absence of accompanying terms, the applicable terms posted on www.Dell.com/eula. Descriptions and terms for Supplier-branded standard services are stated at www.dell.com/servicecontracts/global or for certain infrastructure products at www.dellemc.com/en-us/customer-services/product-warranty-and-service-descriptions.htm.

Offer-Specific, Third Party and Program Specific Terms: Customer's use of third-party software is subject to the license terms that accompany the software. Certain Supplier-branded and third-party products and services listed on this Quote are subject to additional, specific terms stated on www.dell.com/offeringspecificterms ("Offer Specific Terms").

In case of Resale only: Should Customer procure any products or services for resale, whether on standalone basis or as part of a solution, Customer shall include the applicable software license terms, services terms, and/or offer-specific terms in a written agreement with the end-user and provide written evidence of doing so upon receipt of request from Supplier.

In case of Financing only: If Customer intends to enter into a financing arrangement ("Financing Agreement") for the products and/or services on this Quote with Dell Financial Services LLC or other funding source pre-approved by Supplier ("FS"), Customer may issue its purchase order to Supplier or to FS. If issued to FS, Supplier will fulfill and invoice FS upon confirmation that: (a) FS intends to enter into a Financing Agreement with Customer for this order; and (b) FS agrees to procure these items from Supplier. Notwithstanding the Financing Agreement, Customer's use (and Customer's resale of and the end-user's use) of these items in the order is subject to the applicable governing agreement between Customer and Supplier, except that title shall transfer from Supplier to FS instead of to Customer. If FS notifies Supplier after shipment that Customer is no longer pursuing a Financing Agreement for these items, or if Customer fails to enter into such Financing Agreement within 120 days after shipment by Supplier, Customer shall promptly pay the Supplier invoice amounts directly to Supplier.

Customer represents that this transaction does not involve: (a) use of U.S. Government funds; (b) use by or resale to the U.S. Government; or (c) maintenance and support of the product(s) listed in this document within classified spaces. Customer further represents that this transaction does not require Supplier's compliance with any statute, regulation or information technology standard applicable to a U.S. Government procurement.

For certain products shipped to end users in California, a State Environmental Fee will be applied to Customer's invoice. Supplier encourages customers to dispose of electronic equipment properly.

Electronically linked terms and descriptions are available in hard copy upon request.
