

MEMORANDUM OF UNDERSTANDING
EDUCATIONAL PARTNERSHIP
BETWEEN
LOUISIANA SCHOOL FOR MATH, SCIENCE, AND THE ARTS
AND
NORTHWESTERN STATE UNIVERSITY

Effective October 1, 2015

Revised April 1, 2024

PURPOSE

This Memorandum of Understanding (MOU) summarizes an educational partnership agreement between the Louisiana School for Math, Science, and the Arts (LSMSA), Northwestern State University (NSULA), and Louisiana Scholars' College (LSC) to provide undergraduate educational opportunities for students who may attend both institutions. This agreement ensures that each institution serves the needs of students by providing them with appropriate and accurate transfer and advising information.

This agreement replaces any pre-existing MOU's entered between NSULA and LSMSA that pertain to the educational partnership between the two institutions.

GOALS

The goals of this agreement are to:

- Provide a dual enrollment program whereby LSMSA students may earn credits taking LSC and/or NSULA classes,
- Provide the opportunity for qualified LSMSA students to enroll in college courses at NSULA while completing requirements for the LSMSA diploma,
- Improve the transfer and advising process for the benefit of students attending both institutions,
- Develop an Expanded Course Articulation Crosswalk between the institutions,
- Identify personnel in each institution who will coordinate and serve as advisors for LSMSA students entering NSULA and/or LSC,
- Improve collegiality and communication among the institutions' discipline faculty and administrators.

To achieve these goals, LSMSA and NSULA hereby enter into the following agreement.

PROVISIONS

- Faculty employed by LSMSA must meet stated professional credential requirements set forth by the Southern Association of Colleges and Schools Commission on Colleges which governs the acceptability of coursework taught and accepted for articulated credit by colleges and universities.

- For articulated credit opportunities, LSMSA must submit a course portfolio, including examinations and other course documents, for review by NSULA/LSC annually or upon request.
- LSMSA will provide an opportunity for NSULA/LSC faculty to observe course instruction.
- The institutions will engage in joint marketing efforts to promote the articulation partnership. Promotional efforts will include links on respective Web sites for placement of articulation agreements, information in the University Catalog, and transfer information in other school/college publications.
- LSMSA will submit a list of graduates and mailing addresses upon request to NSULA to encourage graduates to further their education with NSULA and/or LSC.
- The institutions will encourage meetings between the NSULA/LSC and LSMSA discipline faculty and administrators. The chief academic officer or designee at LSMSA will direct these meetings
- The institutions will discuss mutually beneficial collaborations among faculty and will seek opportunities for such collaborations to develop.
- This document supersedes any separate or subsequent MOU between NSULA and LSMSA as it pertains to Early College Access or Fast Forward and the deNSU program.

Dual Enrollment/Early College Access/Fast Forward

- LSMSA students must qualify based on the criteria for admission outlined in the Board of Regents Academic Affairs Policy in effect at the time of their enrollment at NSULA.
- Students must meet all pre- and co-requisite requirements stated in the current *University Catalog* for any course pursued at NSULA, either for dual enrollment credit or traditional credit. Exceptions to this policy may be granted by the NSULA Provost in consultation with the Dean of the College where the course is housed and the Director of Academic Affairs at LSMSA. In determining eligibility for course enrollment, these administrators will review each student's academic profile including standardized test scores, course transcripts and participation in honors programs for gifted and/or talented students.
- LSMSA may limit the number of college credit hours a student may pursue in each semester. This decision rests with the LSMSA Director of Academic Affairs or their designee. Under no circumstances will an LSMSA student be permitted to pursue more than the maximum load for a traditional NSULA student.
- LSMSA students may enroll in dual enrollment courses scheduled at LSMSA and taught by LSMSA faculty in Summer, Fall, and Spring terms.
- No tuition/fees will be charged for dual enrollment courses scheduled at LSMSA and taught by LSMSA faculty.
- LSMSA students will be responsible for all charges/fees assigned by NSULA for dual enrollment courses per NSULA's current tuition/fee schedule for courses offered at NSULA's campus or for courses offered online taught by NSULA faculty. An exception may be made if LSMSA lacks sufficient seats in a specific course at LSMSA. In this case, LSMSA may cover the tuition and fees (excluding textbooks) for students to take the course either online or in person at the NSULA campus. Invoices will be emailed to the designated LSMSA contact after the 14-day University count. It is LSMSA's responsibility to review the detailed invoice for accuracy, report any discrepancies in a timely manner, and pay within 30 days of receipt.

- LSMSA students who pursue coursework in traditional collegiate courses (non-dual-enrollment courses) will be charged at the dual enrollment rate in effect at the time the coursework is undertaken.
- Students are responsible for purchasing required textbooks/course materials for courses not taught by LSMSA faculty. Select courses may be part of a digital textbook delivery program that includes digital materials billed directly to the student's NSULA account.
- LSMSA and LSMSA students must comply with the published NSULA Academic Calendar.
- LSMSA will obtain parental consent for student participation.
- LSMSA acknowledges that credit earned at NSULA under Dual Enrollment/Early College Access/Fast Forward will become part of the student's permanent academic record at NSULA.

Fast Forward

- LSMSA students may pursue the Associate of General Studies (AGS) through NSULA.
- College credits used toward the requirements for the AGS may be earned through Dual Enrollment/Early College Access, traditional NSULA enrollment, test credit, or articulated credit.
- LSMSA students pursuing the AGS at NSULA must complete at least 25% of the semester credit hours required for the degree through instruction offered by NSULA.

NSULA Articulated Credit

- LSMSA graduates who meet all requirements for the LSMSA diploma must submit a formal NSULA Application for Undergraduate Admission and an *official* transcript from the Louisiana School for Math, Science, and the Arts. LSMSA graduates must meet required academic standards for beginning freshmen (or transfer students, if applicable) at the time of application to be admitted to NSULA/LSC and receive articulated credit as outlined in this agreement.
- Students must receive an A, B, or S grade for LSMSA coursework to receive articulated credit from NSULA and/or LSC. Lab credit will not be awarded without corresponding lecture credit. A full-year course requires a grade of A or B in both semesters for articulated credit to be awarded.
- Students will be awarded credit based on the course equivalencies and related requirements listed in this agreement (Appendix A). Articulated course credit will be earned only and indicated with a "CR" on the NSULA transcript. Thus, an actual grade earned will not be included in the NSULA cumulative grade point average calculations.
- Upon enrollment at NSULA/LSC for an undergraduate degree, LSMSA graduates must have their LSMSA transcript evaluated by the Office of the University Registrar at NSULA. This should take place before the student registers to eliminate any problems with course credit.
- Degree and program requirements for LSMSA graduates who attend NSULA/LSC and are granted course work under this agreement will be determined in the same manner as if their initial enrollment had been at NSULA/LSC.
- LSMSA students pursuing the undergraduate degree at NSULA or LSC must complete at least 25% of the semester credit hours required for the degree through instruction offered

by NSULA/LSC. One third of the credit hours required in the major, minor, or concentration must be included in the SACS 25% degree requirement.

- Articulation of LSMSA credit is optional. An LSMSA graduate must inform NSULA that they do not wish to have their credit articulated.

TERMS

This agreement shall be effective on April 1, 2024, and shall continue until terminated by either party giving one-year written notice to the other party to protect students enrolled in the dual enrolment program.

This MOU replaces all former MOU's that address the Educational Partnership between the two institutions.

NOTICE

Any changes to this MOU must be in writing and delivered by certified mail or by personal delivery to the person to be notified.

*Credit approved upon completion of competency test administered by LSC.

**Credit for SCRT181W given after completion of SENG2000, SHPS2000, SLSC2000 or equivalent

***LSC students would receive credit for SHIS 2010 only

Appendix B

Associate of General Studies (AGS) Articulation Plan

The AGS requires 60 hours, with 28 hours of required courses and 32 semester hours of enrichment electives selected from three academic groups, of which, 18 semester hours must be in a group of concentration. A degree awarded by NSULA requires that 25% of the hours required for the degree be earned through instruction at NSULA. For the AGS, this means that a minimum of 15 hours toward the degree **must be earned at NSULA**. The other courses will be accepted for articulation to NSULA, subject to the terms of the MOU.

Coursework accepted for articulation under the terms of the MOU will be evaluated in the same manner as transfer work from post-secondary institutions of higher education. In keeping with the spirit of the Board of Regents Statewide Articulation Matrix, reasonable substitutions for General Education Requirements will be made.

When planning, students should plan to take no less than 15 credit hours through dual enrollment at Northwestern.

Because articulated credit based on LSMSA coursework is posted only upon receipt of an official LSMSA transcript indicating the student has earned the LSMSA diploma, the AGS will not be conferred simultaneously with the LSMSA graduation. Instead, degree conferral will occur the following August, and students who wish to participate in NSULA commencement may do so in December.
