No	16	55%
Total	29	100%

5. If you responded yes to item #4, please describe what changes you would like to see occur.

I did not even know we had a mentoring program. No one contacted me at all either

mentors keep in contact with freshman more

My mentor seemed only to be interested in getting the paperwork done. He really didn't care how i was doing.

My mentor didn't contact me at all my freshmen year.

I am not sure I am even in the mentor program bc I was never contaced.

I have no idea what the mentoring program is

The mentors interact with the students more.

I was not contacted by my mentor, so I cannot say whether I enjoyed the program or not.

i never actually met my mentor-i only ever recieved a few emails and friend request on facebook from her

I would have liked to have a mentor

To have more contact with their freshmen assigned to them, that way they can become more effective.

Mentors need to contact their mentee, I never heard from my mentor.

My mentor has never contacted me. I am not even sure who the person is. I did extremely well my first year of college, so i do not feel a mentor is even necessary.
