Student Technology Fee

Grant Proposal

2018.013

FY 2018-19

Ron Wright

Comment: Potential for cost savings on equipment
webcams & stands are not appropriate for
these tables.

Tracy Brown (B)

Comment: Proposal not a complete solution

Shawn Parr

Comment: Tripod monitor stations w/ portable cameras
doesn't make sense for Webex. If the TVs are meant for
Webex they should have fixed camera included. Configuration
Chris Parish + use case doesn't seem fully thought out.

Comment: (CP)

Heath Fitts

Comment: Is there need for network wiring?

Funding decisions will be made during the month of November.

Notifications of funding will be sent via email to the designated project contact.

Project awards are for a single year. Cost savings remain a part of the technology fee account.

Title of Project: Overcoming Digital Disadvantage: Improving Student Access to Technology

1. Improve student access to educational technology so that students in Nursing & Allied Health programs may work collaboratively and have greater exposure to learning opportunities.
2. Expand the methods by which students use educational technology to collaboratively work and study in the Nursing and Allied Health disciplines.

Department / Organization: NSULA Shreveport Nursing & Allied health Library and Learning Resources

Project Contact(s): Sherri Voebel, MLIS, Dr. Dana Clawson, Dr. Joel Hicks

What is the expected number of students this project will serve the first year: 1200; Future: 1500.

Signature of Project Contact: _____ Date: 10/26/2018

Signature of Department Head: _____ Date: 10/26/2018

Signature of Appropriate Dean: _____ Date: 10/26/2018

Northwestern State University
Request for Student Technology Fee Project Funds

Requested equipment will be located/installed/housed in: **Shreveport Nursing Library Building B -- Room 101**
Does the department requesting funding charge lab fees?   **NO**
Are departmental property control policies and procedures in place for requested equipment?

Overcoming Digital Disadvantage
Nursing and Allied Health programs have one of the highest student enrollments of any NSULA program. The target audience for this proposed project consists of the undergraduate, graduate and post-graduate student population of the Nursing & Allied Health programs who use the NSULA Library & Learning Resources Center, Shreveport campus, as well as distance education students who travel to the library for direct service.

This technology will allow NSULA Shreveport to join existing communities of practice. The project facilitates access to open evidence-based health information, promotes information literacy, and encompasses **FAIR** data Principles (**Findable, Accessible, Interoperable and Reusable**). By making information and learning opportunities more accessible and transparent, this grant will foster discovery, enhance trans-disciplinary collaboration and promote the re-use of learnings among NSULA students.

Negative Impact of a non-funded grant:
Students who use the NSU Nursing and Allied Health Library &Learning Resources are technologically disadvantaged compared to similar sized nursing and allied health libraries. Students do not have appropriate technology resources to participate fully in learning opportunities.

Positive impact of funding the grant application:
Undergraduate, graduate and post-graduate students will be able to engage collaboratively with their peers inside NSULA as well as interact with student-peers on a statewide and national basis. They will have access to technology on par with LSU Shreveport, Centenary College and Southern University Shreveport.

Effectiveness of the project: Benefits & Improvement
- ✓ ENGAGE: Engage students in critical thinking and problem solving that deepen their knowledge of evidence-based Nursing & Health Sciences subject matter.
- ✓ INSPIRE: Inspire and enable students to plan, prepare, practice, present and evaluate Nursing & Allied Health information (nursing conference papers, poster sessions, public community health projects – community engagement).
- ✓ ALLOW: Allow students to participate more fully in weekly NLM training opportunities and webinars. American Nurses Association (ANA) workshops and teleconferences, National Student Nurse Association (NSNA), Louisiana Student Nurse Association (LSNA) and other short-term training offerings, workshops and meetings.
- ✓ IMPROVE: Improve students' habits of inquiry, self-directed learning, and critical reflection.
- ✓ SUPPORT: Support student use of WebEx and AV Teleconferencing Technology

YES

Who will be responsible for property control of the requested equipment and how will you secure and monitor access to moveable equipment?

Sherri Voebel
The audio-visual equipment will be tagged by property control. The equipment is stationary and will be mounted securely to the AV table base by GoMedia. Cabling will be added by IT to lock-down the equipment. 3M gate strips will be applied to the monitor so that anyone who bypasses the cabling sets off an alarm if they exit through the library gate.
The auxiliary video web camera will not be stationary. It will be barcoded, tagged and available for check-out at the reference desk. and will be secured in a locked drawer when not in use during business hours and after hours. It will be unavailable at the close of the library. Librarians will require and hold both student ID and Louisiana Driver's License until web-cam is checked in.

List those individuals who will be responsible for the implementation of the project/initiative and indicate their demonstrated abilities to accomplish the objectives of the project.
Once installation is complete, no other personnel will be required.

- **Sherri Voebel** will be responsible for marketing, utilization and monitoring the use of the audio-visual equipment. Sherri previously oversaw teleconference programs and authored Web-Ex presentations for online learning. She implemented a school wide daily video production facility into the Iwakuni M.C. Perry Library and was responsible for computer equipment, video-conferencing and satellite downlinking at South Texas ISD, Louisiana Department of Environmental Quality and she performed the same functions at Exxon Chemical, Baton Rouge while an intern. She also trained faculty and students in the use of distance learning products at CLTCC. Sherri is responsible for information literacy at the NSULA Colleges of Nursing School & Allied Health and will incorporate the student use of audio-visual equipment into information literacy for all nursing and radiology students. She will instruct students in the proper use of the equipment as well as use of the WebEx software.

- **Physical Plant** will provide any technical assistance needed to install the furniture hubs.

List any personnel (technical or otherwise) required to support the project/initiative.

GoMedia installation team will install the equipment and provide library staff with an operational overview of the audio-visual module.

Sandra Rufty and Mollie Moody will be trained by GoMedia in simple trouble-shooting the AV equipment. Sandra Rufty will participate in WebEx Room and WebEx Training modules. Sherri Voebel will train Sandra Rufty and Molly Moody in WebEx troubleshooting to help students who are installing WebEx. WebEx Training classes will be available to all students who wish to produce WebEx presentations. The Shreveport Nursing and Allied Health Library & Learning

Resources will support all teleconference, training, downlinking and audio-visual production activities within the library.

Provide a timeline for implementation.

Implementation and Evaluation Schedule

Grant approval – December 2018
Purchasing – January 2019
Installation – January/February 2019
Evaluation – Initial Library Student Survey – February 2019; Library Monthly & Quarterly Report; Library Annual Report; Annual Student Survey.

Estimate the expected life of any requested hardware and software. Explain any anticipated equipment/software upgrades over the next five years.

No software upgrades are required.
Expected life of equipment: 10 years

✕ EXACT
FURNITURE

Model CT-730

The Exact Furniture CT-730 Huddle table is a more economical version of our Collaborative tables when a lower compartment is not needed for equipment or cabling. Options include an open cable trough or a closed version with a locking access door.
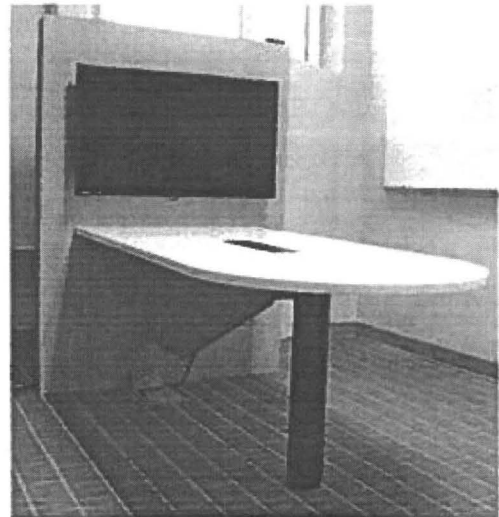

Standard Features

- Constructed with melamine laminates and edge banding
- Worksurface made with scratch resistant high pressure laminate
- Low profile LCD mount holds up to 85" screen
- Locking heavy-duty 4" casters
- Locking rear access panels in back wall for cabling
- Available in our standard finishes

Options Include

- CUSTOM   Rack compartment
- CUSTOM   Cable trough
- LC-400   Cable cubby with HDMI, VGA, audio, USB and Cat6 cables plus A/C outlet and dual USB charger
- LC-500   Cable cubby with 4 AC outlets, two dual USB chargers and holes for up to 12 cables
- Different table shapes and sizes
- AC+USB   Dual AC outlet with dual USB charger
- CUTOUT   Custom cutouts
- PB   8 outlet power bar
- CUSTOM   Custom laminates

Dimensions
Including back wall Height 66" (168cm) x Width 48" (122cm) x Length 77.25" (196cm)
Table width 36" (91cm) Standard table length 72" (183cm)

Essential Steps Required for a Successful Grant Submission:

1. Complete the attached forms making sure to Include all equipment specifications, state contract information, descriptions, quantities, vendor information, etc. according to grant proposal.

2. Send requests for equipment quotes to: long@nsula.edu Instructional Technology and Student Support staff will provide quotes for workstations, printers and other technology upon request.

3. After the proposal has been signed, please scan the complete packet and email to long@nsula.edu.

4. Proposals will be NOT be accepted after 12:00 p.m. Friday, October 26, 2018. Only fully completed packets will be considered for funding. Incomplete proposals will NOT be reviewed.

The Student Technology Fee was established by Act 1450 of the 1997 Regular Louisiana Legislative Session. As outlined in the legislation:

> *Proceeds from the assessment of the technology fee shall be used in accordance with a written plan developed by the institution for purposes of implementing, replacing, improving, and expanding technologies to benefit student life and learning and such use shall be in compliance with any applicable provisions of the federal Americans with Disabilities Act of 1990. In developing the written plan, the institution shall provide students with the opportunity to make recommendations concerning the use of fee proceeds.*

> *For the purposes of this Section, "technologies" includes but is not limited to instructional and laboratory equipment and the networking and supporting computer and telecommunications infrastructure necessary to support these activities.*

It is the goal of the program to fund as many requests as possible as determined by the following criteria:

- Budgeted funds are available.
- The proposal demonstrates it will impact a significant number of students.
- The technology fee is the appropriate source of funding for the request.
- The proposal meets the criteria described above and those defined in the STAT program guidelines.
- If lab fees or other departmental funds are available, an appropriate cost match has been included.

Funding decisions will be made during the month of November.

Notifications of funding will be sent via email to the designated project contact.

Project awards are for a single year. Cost savings remain a part of the technology fee account.
