Student Technology Fee  
Funding Request Form  
Surplus Funding Fiscal Year 2008-09  
Northwestern State University of Louisiana

This document will not be accepted without complete information, detailed budget, specifications of each piece of equipment requested and pricing.

Prepared by: \_\_\_\_\_ STAT \_\_\_\_\_ For: \_\_\_ STAT \_\_\_ University Campus \_\_\_ NSU \_\_\_

College: \_\_\_ STAT \_\_\_\_\_ Campus: \_Natchitoches\_\_\_\_\_ Department: \_\_\_ STAT \_

Where will requested equipment be located/installed/housed: Bldg. \_different locations\_ Room \_\_\_

Are property policies and procedures in place by the department for equipment requested. \_\_\_ Yes \_\_\_

Delivery to the Student Technology office located in Watson Library, Room 113. Date \_\_\_ 4/24/09 \_\_\_

1. Describe target audience.

NSU students across the university community.

2. Describe project/initiative for which you are requesting funds.

Equipment will be used to assist student's across the university community in different learning environments.

3. State measurable objectives that will be used to determine the impact/effectiveness of the project.

The effectiveness will be measured by the use of the equipment by the student's.

4. Indicate how each project objective will be evaluated.

The project will be evaluated by the usage of the requested equipment.

5. Provide a justification for funding of the project. Estimate the number of students that will be served per academic year and in what ways. Please indicate also any unique needs of the target group.

The requested equipment will be used by all students at NSU.

6. If funded, which NSTEP (<http://www.nsula.edu/nstep/NSTEP.pdf>) objective will this funding of this project advance. How will funding of the project advance the University and College / unit technology plan?

Objective 1: To improve access to technology by students, faculty, and staff at NSU.

Objective 2: To provide classrooms with updated technology and multimedia.

Objective 3: To upgrade student technology laboratories with modern technology.

7. List those individuals who will be responsible for the implementation of the project/initiative and indicate their demonstrated abilities to accomplish the objectives of the project.

Jennifer Long Martin will serve as project manager.

8. Describe any personnel (technical or otherwise) required to support the project/initiative.

Jennifer Long Martin will serve as project manager.

9. Provide a schedule for implementation and evaluation.

May – set up budgets

June – purchase

July/August – implement purchases

10. Estimate the expected life of hardware and software. Explain any anticipated equipment/software upgrades during the next five years.

Lifespan on equipment/software is five years.

11. Explain in detail a plan and policy that will be in place to ensure property security/controls for any equipment received through Student Tech Fee.

The purchases will follow the property security/controls in place by the university.

12. Attach a detailed budget, including: specs., description, cost, state contract number, and vendor for each item; cost of outside support personnel; and a description of how the proposal will support University/College/unit resources (i.e., cash match, funds from other sources, or reallocation of existing hardware/software or other equipment). **All of the information requested must be attached or the request will not be accepted.**

**See attached**

13. Attach a letter of support for the project signed by the requesting unit's Dean, the appropriate Vice President (for non-academic units), or the SGA President from the requesting campus (for student requests).

Scholarship

equipment/software upgrades during the next five years.

The expected lifespan of the projector unit is 3-5 years and the bulb is rated for 2000/3000 hours. The expected lifespan of the scanner is 3-5 years. In general, with scanners, they will not fail unless there is a physical breaking of the component parts and this "breaking" is usually the result of misuse. The laptops have an expected life of 3-5 years and the software should remain functional for the period of time. Like all technology and program suites, obsolescence is sooner rather than later, but well maintained equipment should remain reliable for years.

11. Explain in detail a plan and policy that will be in place to ensure property security/controls for any equipment received through a Student Technology Fee.

If you are requesting equipment that will be either/or checkout to students or moved within the department, you must provide a checkout/loan policy.

The projectors and attendant fixtures, cords, etc., requested will be such that it cannot be removed from the rooms in which they are installed. The projectors will be mounted from the ceilings with the proper security safeguards in place. The scanner will be housed in the computer lab which is locked each night and will have the necessary security measures installed for its safekeeping. Each of the laptops will be on rolling carts that will be stored in a secure closet when not in use.

12. Detailed budget include all specs, pricing and vendors. Any incomplete proposal will be returned.
