

Student Technology Fee
Special Initiative Request Form
Fiscal Year 2015-16
Northwestern State University of Louisiana

ALL BLANKS MUST BE FILLED COMPLETELY

Prepared by: _____ STAT _____ For: ___ Campus Initiatives _____

Department/Unit: _____ College: ___ NSU _____ Campus: _NSU Community

Which NSTEP Goals/Objectives does this project meet? _____ 1 - 10 _____

Requested equipment will be located/installed/housed? Building _____ Room _NSU_

Are department property policies and procedures in place for requested equipment? ___ Yes ___

Which individual will be responsible for property control of the requested equipment?

Signature: _____ Date: _____

Proposal Requested Amount: \$ _____ 577,107.07 _____ Budget Attached (circle one): YES/NO

Proposal delivered to Student Technology located in Watson Library, Room 113. Date _____

The proposal must include all specifications, description, model number, quotation, cost, state contract number, and vendor for each item. If the proposal does not include all requested information, it will be returned to requestor.

1. Describe target audience.

All students enrolled through Northwestern State University

2. Describe project/initiative for which you are requesting funds.

To purchase equipment to be used by and for all NSU students.

3. State measurable objectives that will be used to determine the impact/effectiveness of the project.

The equipment will directly impact all students on the Natchitoches, Shreveport and Ft. Polk Campus. This initiative will also benefit on-line students.

4. Indicate how each project objective will be evaluated.

The effectiveness of system will be evaluated by the students on and off campuses in the academic coursework.

5. If funded, which NSTEP <http://www.nsula.edu/nstep/NSTEP.pdf> objective(s) will this funding of this project advance. How will funding of the project advance the University and College/unit technology plan?

Objectives 1 – 10 will be enhanced.

6. Provide a justification for funding of this project. Estimate the number of student that will be served per academic year and in what ways. Please indicate also any unique needs of the target group.

This project will directly affect all students on all NSU campus and on-line students to better prepare them for coursework related technologies.

7. List those individuals who will be responsible for the implementation of the project/initiative and indicate their demonstrated abilities to accomplish the objectives of the project.

Jennifer Long, Student Technology – will serve as project manager

8. Describe any personnel (technical or otherwise) required to support the project/initiative.

Student Technology will be provide all technical support necessary.

9. Provide a schedule for implementation and evaluation.

Funding – November
Purchase – November/December
Installation – Spring Semester

10. Estimate the expected life of hardware and software. Explain any anticipated equipment/software upgrades during the next five years.

The hardware should have a life span from 5 years.

11. Explain in detail a plan and policy that will be in place to ensure property security/controls for any equipment received through a Student Technology Fee.

If you are requesting equipment that will be either/or checkout to students or moved within the department, you must provide a checkout/loan policy.

The department will follow policies and procedures in place by the university.

12. Below is a detailed budget.

Department	Description	Cost/Each	Total
Academic Success Center	Campus Community	\$150,000.00	\$150,000.00
Campus Event Video Streaming & Distribution	Campus Community	\$ 25,000.00	\$ 25,000.00
Mobile Charging Stations	Campus Community	\$23,940.00	\$23,940.00
SMART Classrooms	Campus Community	\$148,547.17	\$120,894.60
Disabilities/ADA	ADA students	\$9,762.28	\$9,762.28
AXIS TV upgrade	Digital messaging	\$24,047.13	\$24,047.13
Classroom additions/upgrades	Classrooms across campus	\$50,000.00	\$50,000.00
Laptops for Cenla Campus	Alexandria campus	\$14,760.00	\$14,760.00
Laptops for Student Checkout	Campus Community	\$8,766.06	\$8,766.06
VDI Initiatives	Virtual Desktop Infrastructure	\$150,000.00	\$150,000.00
		Total	\$577,170.07

Subject: RE: Budget

Academic Success Center Initiative

As part of the recently adopted strategic framework at NSU this center will consolidate and enhance key academic support services into a single location located in Watson Library. Key to this endeavor will be the inclusion of appropriate and sufficient technology to provide the tools and environment essential for student success. This project is still under development and this request is for an initial budget so that funds may be set aside. We will present a full accounting of expected expenditures prior to work beginning on the project.

VDI Initiative (Virtual Lab)

This project will extend the reach of campus technology services allowing students to remotely access hardware and software that in the past has been limited to campus use. This would be best described as a 'Virtual Lab' for students. The full desktop experience as well as access to specialty software will be available to any student from anywhere they have Internet access. This project is still under development and this request is for an initial budget so that funds may be set aside. We will present a full accounting of expected expenditures prior to work beginning on the project.

Campus Event Video Streaming & Distribution

As part of the recently adopted strategic framework at NSU this project will create the initial infrastructure for a video distribution and streaming network across the campus. Following the framework's goals, initial work will focus on making campus events, specifically in CAPA, available to remote students and community members, both near and far, that would otherwise be unable to view these world-class performances. The ultimate goal is to originate or deliver video from anywhere to anywhere on or around any NSU campus as well as world-wide via the Internet. This project is still under development and this request is for an initial budget so that funds may be set aside. We will present a full accounting of expected expenditures prior to work beginning on the project.

Subject: Apple TVs
Importance: High

I want to place Apple TV's in all of our rooms that can currently support the technology. Which/how many of our rooms are digital or will be digital with the new ones I have the quote for?

Thanks.

Subject: Estimate for Fournet 123

Last time we talked you said you only needed a Budget Figure for Fournet 123 "Show Case" Room and not the official State Contract Quote. Here's what this room would cost:

\$34,025.32

This is what it would include:

10th screens

1. (2) Bright High Resolution Projectors
2. (2) New Wide Format Recessed in ceiling electric screens
3. New Digital Media Switcher Presentation System
4. New Digital HD Document Camera
5. (2) Smart 18" Interactive Monitors on Lectern Surface mounted on a dual arm monitor mount system
6. New Floor Raceway from wall to lectern
7. Crestron Dual Technology Occupancy Sensor
8. 1 Year Onsite Labor Extended Warranty

Existing Equipment we could use:

1. Lectern
2. Crestron Touch Panel Controller already mounted in Lectern
3. Projector Suspended Ceiling Mounting Kits
4. Crown 1160MA Audio Amplifier
5. (12) JBL Speakers already mounted in ceiling
6. Shure Wireless Lavalier Microphone
7. The Rack Power Conditioner already in Lectern Rack

Let me know if you need any other info for this room for your budget meeting?

Multi-User Licensing

If your organization has 5 or more ZoomText users, or need to provide access to ZoomText across an entire network, you should considering purchasing a ZoomText multi-user license. We have two different options: a district license, designed for organizations that have 5 or more users that work beyond the boundaries of a single network; and a network license, designed for organizations that have 5 or more users that work within a single network. Pricing for both licenses start at \$2,399 and you can add on an additional 5 users for \$1,799. Give our sales team a call at (800) 859-0270 or (802) 362-3612 option #2 to discuss pricing and which option would work the best for you.

What's New in ZoomText 10.1

ZoomText 10.1 contains the following new features and enhancements, allowing for greater productivity and support in the Windows 7 and Windows 8/8.1 operating systems as well as in the latest versions of popular applications. Be sure you also check out the list of all the [features that were already in ZoomText](#), but here's a list of everything new: 

- **Support for Windows 7, 8 and 8.1** ZoomText 10.1 provides unmatched magnification and reading support for the new Windows 7, 8 and 8.1 operating systems and interface. Whether you're running new Windows 8 apps or legacy applications, ZoomText allows you to work at the highest level of speed and productivity. ZoomText 10.1 also includes ZoomText's patented "xFont" magnification, which provides the sharpest magnified text available on the market today.
- **Support for Microsoft Office 2013** ZoomText 10.1 supports the core applications in Microsoft Office 2013 including Word, Excel and Outlook. Create, navigate and read your documents with ease and accuracy.
- **Support for Internet Explorer 10 and 11** With robust support for Internet Explorer 10 and 11 (aka IE10 and IE11), ZoomText 10.1 makes web browsing a snap. Search, navigate and read your favorite websites using ZoomText's powerful Web Finder and reading tools.
- **Improved Support for Videos and Games** With a new magnification engine and full DirectX support, you now can watch and play all types of videos and games with ZoomText.
- **Support for Touch Screen Devices** ZoomText 10.1 can be used on Windows 8 and 8.1 touch screen devices including tablets, laptops and desktop monitors. ZoomText follows along as you tap, drag and swipe your way through all of your applications. And you can instantly access key ZoomText features using the ZoomText Touch Icon and gestures. Note: Requires a 5-point or greater multi-touch device.
- **Additional Levels of Magnification** To support users wanting higher magnification levels and ultra-high resolution displays, ZoomText's magnification levels have been extended and now include 42x, 48x, 54x and 60x. We've also added more fractional levels between 1x and 5x.
- **Improved Tracking and Program Echo** ZoomText's improved event handling delivers more accurate and complete tracking and reading as you navigate application menus, dialogs and other controls.
- **Smooth Mouse Pointers** At all magnification levels, ZoomText now displays mouse pointers with smooth edges that are more pleasing to look at and use.

- **Color Enhancement Transition Effects** ZoomText's new transition effect gives a fresh, comfortable feel when switching between color enhancement schemes.

Options Galore

ZoomText is jam packed with exciting features and add-ons that are designed to increase your productivity and extend its usefulness beyond your computer.

ZoomText is available in over 20 languages, with a variety of license types to choose from. Plus, we offer an Enhanced Support Plan (ESP), providing you with premium technical support and the next two ^L ZoomText upgrades delivered automatically.

ZoomText Single-User License

A ZoomText Single-User License is designed for one individual. With this license, ZoomText can be installed and activated on up to three computers. You can transfer activations at any time if you need to free up activation(s) for use on another computer.

Benefits of the ZoomText Single-User License

- **Affordable.** Our pricing has been unchanged for years and we always offer low-cost upgrades when new versions come out.
- **Powerful.** This license lets you have access to ZoomText on up to three computers. If you don't have the need to take ZoomText with you wherever you go, this is the perfect solution for you.
- **Customizable.** You can change your settings to whatever you need them to be and they will load up whenever you start the program.

ZoomText USB License

A ZoomText USB License is designed for one individual, but someone who wants to be able to use ZoomText on any number of machines. With the USB license, ZoomText can be installed and activated permanently on the three computers you use the most and then you can take your USB stick with you to any number of other machines - the sky is the limit. You do have to have administrative rights on any machine that you bring your USB stick to for the first time. After that, you just plug in your USB stick and ZoomText will start up automatically.

Benefits of the ZoomText USB License

- **Access on any computer.** With ZoomText USB you can plug in and run ZoomText on any system without having to purchase additional licensing.
- **Portable and always within reach.** The ZoomText USB drive fits in your pocket or around your neck (on the included lanyard), so it's always with you when you need it.
- **Easy to use.** Just plug in the ZoomText USB drive and ZoomText automatically starts up. If ZoomText is not installed, the friendly setup program is launched and you'll be up and running in minutes.
- **Plug-and-Play license management.** Since the serial number is tied to the ZoomText USB drive, there are no serial numbers or license activations to worry about.
- **Take your settings with you.** Your personalized ZoomText configuration settings are saved to your USB drive and are automatically loaded each time you plug in and start ZoomText.
- **Single-User and Multi-User Pricing Options.** Choose the version best suited for you or your organization.

ZoomText Network License

A ZoomText Network License is designed for organizations that have 5 or more ZoomText users who work within a single network. With the network license, ZoomText can be installed to all computers on the network*, allowing users to sit at any available workstation. The number of concurrent users is limited to number of licensed users.

**Beginning 12/11/2012, Network Licenses can span subnets*

Benefits of the ZoomText Network License

- **Cost Effective.** The most immediate benefit of purchasing network licensing is the lower pricing. An organization can substantially decrease its per-user cost by purchasing a network license instead of purchasing multiple single-user copies.
- **Scalable.** Network licenses are offered in 5-users increments, ranging from 5 users to any multiple of 5 users. Additional licenses can be added at any time.
- **Faster Deployment.** Once the ZoomText network server is installed, you can rapidly deploy ready-to-use installations of ZoomText as part of a machine image.
- **Roaming Profiles.** With support for roaming profiles, each user's personal settings are automatically available at any workstation.
- **Easy to Maintain.** License management tools allow system administrators to see how many licenses are currently in use, and what machines they are assigned to.

ZoomText District License

The ZoomText District License is designed for organizations that have 5 or more users that work beyond the boundaries of a single network. With a district license, ZoomText can be installed on any computer owned and operated by the licensing organization. Each installation must be activated, so the total number of installations is limited to the number of licensed users. For example, a 40 user license can be installed and activated on exactly 40 computers.

The district license is recommended for organizations having users randomly spread across multiple networks, working on standalone workstations (not attached to a network), or mobile users, such as teachers and trainers that are on the road.

Benefits of the District License

- **Cost Effective.** The most immediate benefit of purchasing district licensing is the lower pricing. An organization can substantially decrease its per-user cost by purchasing a standalone license instead of purchasing multiple single-user copies.
- **Scalable.** District licenses are offered in 5-users increments, ranging from 5 users to any multiple of 5 users. Additional licenses can be added at any time.
- **Flexible Deployment.** Ideal for organizations requiring random installations of ZoomText spread across multiple networks, and off-network computers.

Subject: Text to speech for online courses

Hi Ms. Catherine,
I was wondering if we had some type of document reader for students that cannot see/read well? I was wondering about something like this: <http://www.readspeaker.com/readspeaker-docreader/>

I have seen it used inside a Content Management System (Desire2Learn) and it works very well. Students don't have to download anything at all and it is fast and easy to set up...

Just wondering... ☺ Thanks for the info!

Same day shipment subject to order size limitations, Dell standard shipping methods and payment via credit card, gift card or Dell Business Credit. Notification will be provided if there are payment delays which could impact shipping date. Electronics and accessories may ship separately.

Smart Selection. Limited quantities. Only available for orders placed by 5:59 p.m. CT Mon.-Thurs. Systems shipped the next business day after an order is placed. Subject to order approval. Software and accessories not part of the configuration will be shipped separately and may arrive after your system. Please note that Smart Selection Configuration pricing cannot be combined with other pricing offers or discounts provided or agreed to by Dell. ** Orders with Custom Factory Integration might require additional processing time.

[^]Dell Business Credit: OFFER VARIES BY CREDITWORTHINESS AS DETERMINED BY LENDER. Offered by WebBank to Small and Medium Business customers with approved credit. Taxes, shipping and other charges are extra and vary. Minimum monthly payments are the greater of \$15 or 3% of account balance.

^{**}Payment solutions provided and serviced by Dell Financial Services L.L.C. or its affiliate or designee ("DFS") to qualified customers. Offers may not be available or may vary in certain countries. Where available, offers may be changed without notice and are subject to product availability, credit approval, execution of documentation provided by and acceptable to DFS, and may be subject to minimum transaction size. Offers not available for personal, family or household use. Dell and the Dell logo are trademarks of Dell Inc. Restrictions and additional requirements may apply to transactions with governmental or public entities.

¹Subject to applicable law and regulations.
