Please provide any additional information about or descriptions of the supervised clinical experiences:

The number of full time equivalent faculty and the number of full time equivalent adjunct faculty was calculated in head count as indicated by Louisiana Guide to Complete the Westat Title II Institution and Program Report Card. Adjunct faculty were counted as 1 FTE. The average clock hours were calculated based on the final semester of the two-semester Residency that candidates are now required to complete.

Enrollment and Program Completers

THIS PAGE INCLUDES:

>> [Enrollment and Program Completers](#)

In each of the following categories, provide the total number of individuals enrolled in teacher preparation programs for an initial teaching credential and the subset of individuals enrolled who also completed the program during the academic year.

Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

- >> [Teachers Prepared by Academic Major](#)

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2018-19.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

What are CIP Codes?

No teachers prepared in academic year 2018-19

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2018-19. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

Program Assurances

THIS PAGE INCLUDES:

>> [Program Assurances](#)

Respond to the following assurances. Note: Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. ([§205\(a\)\(1\)\(A\)\(iii\)](#); [§206\(b\)](#))

Program Assurances

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

- Yes
 No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

- Yes
 No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

- Yes
 No
 Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

- Yes
 No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

- Yes
 No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- Yes
 No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

- Yes
 No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

Continued collaboration with LEAs and State DoE. Candidates enrolled in traditional undergraduate programs complete an average of 280-hours field and clinical experiences prior to student teaching/residency across their certification grade band. Field experiences and clinical practice are monitored throughout the program to ensure diversity of experiences in type of school, SES, as well as ethnicity.

Assessment Pass Rates

THIS PAGE INCLUDES:

>> [Assessment Pass Rates](#)

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. [\(§205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact Westat's Title II Support Center and your testing company representative.

Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. ([§205\(a\)\(1\)\(F\)](#))

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction

- Yes
 No

- b. use technology effectively to collect data to improve teaching and learning

- Yes
 No

- c. use technology effectively to manage data to improve teaching and learning

- Yes
 No

- d. use technology effectively to analyze data to improve teaching and learning

- Yes
 No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

Integrate technology into curricula and instruction: With the advances in educational technology and its increasing availability in P-12 schools, it is imperative that teacher candidates be prepared to integrate digital-age tools for planning, instruction, student engagement, and assessment of learning. Candidates at Northwestern State University develop a digital-age skill set that includes Web 2.0 tools, interactive whiteboard technology, Universal Design/Universal Design for Learning. Candidates use their knowledge and skills in coursework and field experiences to create technology-rich learning environments that promote student inquiry, critical thinking, and problem-based learning. Use technology to effectively collect data to improve teaching and learning: Candidates experience the value of using student data in improving teaching and learning. They understand the concepts of 1) assessment of learning and 2) assessment for learning. Best practices in designing learning assessments are presented to candidates, and the candidates demonstrate their mastery of these through field-based activities. Candidates are afforded the opportunities to use technology to collect data on summative and formative assessments of student performance in lessons they teach before and during the clinical experience (student teaching or internship). Because each school district, and in some cases each school, has access to different tools, candidates collaborate with field-based cooperating teachers to select the most appropriate tools for data collection in the lessons they teach. Use technology to manage data to improve teaching and learning: Once candidates collect student performance data, they may use any number of applications to organize the data. Applications like Google Classroom and Eliademy are learning management systems with built-in assessment modules for collecting, housing, and analyzing data.

Other applications like Google Forms and SurveyMonkey are Web-based data collection tools from which data can be exported then imported into spreadsheet applications, like Microsoft Excel or Google Sheets, for organizing data in usable forms. Use technology to analyze data to improve teaching and learning: Candidates use spreadsheet applications, like Microsoft Excel or Google Sheets, to organize and analyze student performance data. Other tools embedded within the applications used to collect data may be available for candidate use as well. Student performance data are analyzed using any number of these tools to assist the candidate in reflecting on student performance and in making data-driven instructional decisions.

Provide the following information about your teacher preparation program.

(§205(a)(1)(G))

Teacher Training

1. Provide a description of the activities that prepare general education teachers to:

a. Teach students with disabilities effectively

All students seeking certification within this program must successfully complete a required special education course. This course focuses on all facets of special education and specifically addresses the preparation, instruction, and assessment of students with disabilities. This course provides training in Council for Exceptional (CEC) dispositions and knowledge required for working as a member of an Individualized Education Plan (IEP) team. Topics covered include Special Education law, major categories of disabilities, diversity, and education in the least restrictive environment (LRE). In addition to the topics covered in this class, the needs of diverse learners are a principal focus throughout other coursework. This program prepares both general and special education teachers to effectively teach students with disabilities by regularly examining and discussing the learning differences and similarities of all children.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the Individuals with Disabilities Education Act. As coursework culminates, mastery of the aforementioned skills and an understanding of how to apply the provisions of disabilities law (such as Inclusion, LRE, and Individuals with Disabilities Education Act (IDEA) and the responsibilities of educators and stakeholders in an IEP is required of all candidates. Particular emphasis is given to understanding parental perceptions and concerns of disabled children and ways of working with parents, their children, and team members in order to assure optimum achievement for children.

c. Effectively teach students who are limited English proficient.

ELL and ESL students are addressed through instruction about differentiation. Students are expected to craft lessons for these students if present in their classes.

2. Does your program prepare special education teachers?

 Yes

 No

If yes, provide a description of the activities that prepare *special education teachers* to:

a. Teach students with disabilities effectively

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

c. Effectively teach students who are limited English proficient.

Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

Note: Due to federal deadlines, Northwestern State University is certifying this report with incorrect passages rates. The Louisiana Board of Regents has been working with Westat to load the correct rates, but Westat continues to have the wrong rates in the report. Founded in 1884 as the State Normal School, Northwestern State University continues its legacy of preparing teachers and other school personnel for their daily work in the schools. Evidence to support this statement includes published findings from the Louisiana Board of Regents Teacher Preparation Data Dashboards. The Data Dashboards were voluntarily developed by public universities, private universities, and private providers to provide the public with information about individual state-approved teacher preparation programs in Louisiana. The state given COMPASS teacher evaluation system evaluated teacher practice and student outcomes. For 2014-15, 2015-16 and 2016-17, the mean & effectiveness level for 170 1st and 2nd year teachers graduating from traditional, undergraduate programs at NSU were provided. Of this number, 86% of them scored in the highest two categories (effective: proficient and highly effective). The mean score for NSU trained teachers was 3.2 on a 4 point scale. The 2018 data dashboard is available on the Board of Regents website. Due to discrepancies found in data used to calculate Growth in Student Learning Scores and Compass Teacher Evaluation Scores for new teachers completing individual teacher preparation programs, it was not possible to release 2019 Teacher Preparation Data Dashboards or create a 2019 Teacher Preparation Fact Book. In Section 1, Program Information, NSU has been asked to provide ethnicity/race and gender information regarding our enrolled students. A number of them declined to select an ethnicity/race category or a gender on their admission application. Thus, the number provided in ethnicity/race and/or gender may not match the number of unduplicated males and females.
