		I sent this email out to the director of middle schools for my district today and included a link to the MAT program:
		I just finished NSU's MAT certification program this semester and it's great! It's a little more expensive and takes longer than iTeach and others like that, but it's also through a university vs. a company. It was perfect for someone like me who's undergrad was not in education and who just wants to teach in the classroom. They also offer a Masters of Education that doesn't take as long (less credit hours) for if anyone who already has a teaching certification and wants to go into curriculum and/or administration and everything is online! I was never in a physical classroom at NSU, but the quality of instruction exceeded my expectations. Honestly, it was really hard at times because some of the assignments were methodical and required a lot of
3 - Agree	Outstanding	This program helped me grow as an educator and as an individual.
4 - Strongly Agree	Outstanding	I feel very prepared to teach at a higher level than when i first began teaching and began the program. I feel this program gave me the tools necessary to be a great teacher.

4 - Strongly Agree	Outstanding	This program was very challenging, but effective.
4 - Strongly Agree	Outstanding	Great program!
4 - Strongly Agree	Good	Over all I feel very prepared.
3 - Agree	Good	N/A
3 - Agree	Good	I was satisfied with the program. The communication from my professors and advisors was very responsive.
3 - Agree	Good	The program was great when it came to preparing me for my certification.
		Many of the assignments and data during the residency/student teaching semester did not translate well to the music education field. All other courses during the program were relevant and applicable, but assessment and data work differently in the music field than they do in a core subject classroom, especially since music is more subjective than other subjects. Some of the assignments and requirements could be given to the music education supervisors to modify for the music students to make them more efficient and accessible. Other than that, the program could potentially use more technology and special education instruction, but most other courses in the program are successful and very high quality!

4 - Strongly Agree	Outstanding	None
4 - Strongly Agree	Outstanding	N/A
4 - Strongly Agree	Outstanding	This program has prepared me to improve my students' learning.
		This program has been great! I have learned so much and I feel so confident in my teaching abilities now. I appreciate how easy it was to communicate with all professors and my advisor. I will definitely recommend this program to others!
4 - Strongly Agree	Outstanding	

4 - Strongly Agree	Good	<p>During the program, I feel that there wasn't enough time spent on students who weren't neuro-typical and how to plan for those groups of students. Students with ADD, OCD, Anxiety, etc. I spent much time this year having students whose parents were discovering these things about their students and didn't know what to do or how to approach their at home learning. I realize their in-class learning wasn't really addressed in the program after the summer course. Since I am ADHD and have learned my patterns, I was able to apply some learning strategies to those students effectively and saw results from several of those students this year but as far as other students with disabilities, I had to learn as I got. I would have liked to have a starting point that I could instantly think of.</p>
4 - Strongly Agree	Outstanding	<p>Thank you! I feel confident in my continued work with students and have learned valuable skills and about resources I will draw on for many years to come.</p>
3 - Agree	Fair	<p>I feel like I am confident to teach my own class after student teaching, but honestly several professors are distant and hard to get in touch with. Many professions are not direct and not helpful when it comes to instruction and guidance. I feel like we complete a lot of busy work instead of education assignments.</p>
3 - Agree	Outstanding	<p>I wish we would have learned more about IEPs. And the residency not get cut short.</p>

3 - Agree	Outstanding	The program I was involved with gave me the opportunity to work with numerous different ensembles and instruments. I received feedback each time I taught and given the chance to improve my teaching. They also have mentored me through online teaching during COVID-19, using programs such as Smart Music and Google Classroom. I feel prepared to teach in any setting upon graduation.
3 - Agree	Outstanding	I have learned a lot from this program!

esidency 2. The lack of communication, understanding, materials, and knowledge of the field by the inst

ructor is discouraging. There were many times students were left in the dark and felt unheard due to th

e lack of understanding. In some instances information would change from meeting to meeting without

any warning. Mistakes happen but there is a difference between admitting a misunderstanding and givi

ing proper information vs changing the information and standing your ground it "never changed". Reside

ency 2 is not only the most exciting semester but it is also a semester you spend your lasts with your stu

dents. During this time I felt like I was walking on egg shells not knowing what assignment requirements

; were changing day to day or feeling as if I couldn't approach my instructor when I had questions. This |

position needs to be given to someone with real classroom experience and understanding. Someone wh

io is approachable and easy to communicate with. I have had many issues
